ATITHIYA INTHORN
FRONTEND DEVELOPER

PROFESSIONAL SUMMARY

I graduated from Generation Thailand Bootcamp, where I acquired essential technical and soft skills, well-suited for transitioning from a two-year career in the document verification industry. I have a genuine interest in software development, underpinned by my technical abilities. I'm dedicated, hardworking, and consistently eager to learn from my experiences, with a focus on achieving my goals and continuous improvement.

EXPERIENCE

Quality Control Officer

ShopeeXpress (Thailand) Co., Ltd. (Outsource)

July 2022 - Present

- Examined employee work to ensure parcel deliveries followed established processes, emphasizing attention to detail
- Verified compliance with PDPA law through analysis of submitted data, confirming adherence to procedures and privacy regulations
- Managed 3,200 cases on a weekly basis, proactively engaging with customers to address issues or errors encountered with delivery drivers

Junior Software Developer Cohort 5 Bootcamp

Generation Thailand

July 2023 - October 2023

- Constructed a workout tracking website with responsive designs for both desktop and mobile platforms, employing the MERN Stack, which includes MongoDB, Express.js, React.js, and Node.js
- Attained essential behavioral skills for various aspects of life, encompassing the cultivation of a growth mindset, effective communication, personal responsibility, and persistent determination
- Crafted multiple mini-projects utilizing HTML, CSS, Tailwind CSS, JavaScript, and React JS, including the development of CRUD React JS projects

KYC Officer

Bitkub Online Co., Ltd (Outsource)

April 2021 - June 2022

- Confirmed the identity verification lists before setting up a customer account
- Proactively investigated potential high-risk aspects of clients' occupations, promptly reporting as needed, and obtaining essential documentation for comprehensive customer profiles
- Successfully met daily KPIs, achieving high-performance ratings, and earning a promotion to the Data Cleansing position

PROJECTS

KeepFit (Workout Web Application)

- Designed and implemented a workout tracking application with a member system, utilizing agile methodologies, and specifically tailored for elderly users. This application streamlined the process of logging daily workouts and provided a user-friendly dashboard for ease of use
- Created the 'My Activity' feature, which involved designing the user interface using Figma, ReactJS, and TailwindCSS, and coordinating API requests to enhance user access and data readability
- Crafted the Keepfit Logo with a distinctive design

Weather API

- Craft a web application uses HTML, CSS, and JavaScript to fetch and display current weather information from the OpenWeatherMap API for a specified location

Colmar Academy

- Built a static school website with responsive web design, catering to both desktop and mobile platforms, using HTML and pure CSS
